VII. Limited English Proficiency (LEP) Plan

Plan Summary

A Limited English Proficiency (LEP) person is described as one who does not speak English as his/her primary language and who has a limited ability to read, speak, write, or understand English. It is the intent of Senior Neighbors to be willing and prepared to help those to whom language may be a barrier to obtaining necessary services. Senior Neighbors has developed this Language Proficiency Plan to help identify reasonable steps in providing language assistance for LEP persons seeking access to Senior Neighbors transportation services.

This plan outlines procedures on how to identify persons who may need to use our service, but do not speak English well enough to adequately communicate with agency personnel without assistance. The plan details how to identify individuals who need language assistance, provide ways to obtain appropriate assistance, train staff, provide notice about our LEP procedures to LEP persons, and establish ways to monitor and update this plan.

Four Factor Analysis

1. The number or proportion of LEP persons eligible to be served or likely to be encountered by a Senior Neighbors program, activity, or service.

Senior Neighbors is an agency that works exclusively with people 60 years old or older. Our transportation clients are almost exclusively Kent County residents. It is Senior Neighbor's desire to treat each senior citizen encountered with respect and the dignity they deserve. According to the 2010 American Community Survey conducted by the U.S. Census Bureau, there are 98,262 residents over age 60 of the total 603,219 Kent County population. Three point seven percent (3,636) of Kent County seniors speak English "less than well" and 6.5% (6,387) speak a language other than English in the home. The census data found did not single out any specific languages. In the State of Michigan, the "Other Indo-European" language speakers make up the largest group of people in the general population who do not speak English in the home. While we have encountered very few people who exclusively speak Spanish, the Spanish speaking population in Kent County continues to grow.

2. The frequency with which LEP persons come in contact with a Senior Neighbors program.

As part of our Outreach and Assistance program, Senior Neighbors has reached out to refugee groups in our area. Currently, we regularly provide rides to approximately 7 Bosnian speaking refugees when we are scheduled to do so. We also periodically provide rides to Spanish speaking participants (approximately four times per year per vehicle) through the county-wide Ridelink service. There is also a group of Vietnamese speaking seniors in our community, though census data regarding local non-English Vietnamese speaking senior individuals could not be found. The Grand Rapids area has a significant and growing group of Spanish speaking seniors. There is a sister organization in our community called Latin American Services. This organization specifically focuses on the Hispanic population, so most non-English speaking Hispanic seniors

attend their senior center, use their case management services and take rides on their buses. In the last year, no one riding our buses has asked us to provide interpretation services.

3. The importance of Senior Neighbor's service to the lives of people in our community.

Senior Neighbors is dedicated to enhancing senior lives by improving their chances of living independently and reducing their isolation. We have buses stationed in the rural areas of Sparta and Lowell and in the suburb of Grandville. Sparta and Lowell buses, through the RideLink system, provide low cost transportation to seniors who live outside of the boundaries of the local transit system. This is the only low cost transportation available to people in rural areas of the county. We also have two six passenger vans that are located in Grand Rapids and give the inner city senior residents access to the low cost RideLink services.

4. The resources available to Senior Neighbors and the cost.

Senior Neighbors uses Bosnian and Vietnamese interpreters who charge between \$25.00 and \$60.00 per hour. For Spanish and other languages, we use the Hispanic Center, Voices for Health or other professional interpretation services. They charge between \$45.00 and \$100.00 per hour depending on the language and availability of interpreters. Sometimes family members can be used, though family members have to be carefully screened to insure that their interpretation is not pejorative. Updating these brochures will cost between \$200.00 and \$500.00. Annual trainings are provided for transportation staff. Training costs vary depending on availability of speakers and materials. Printing and distributing of new "I Speak" flash cards for the two vans will cost approximately \$40.00. Access to Voices for Health three-way calling is available any time it is needed. Standard cost for this service is \$1.60 per minute, but can vary depending on language.

Limited English Proficiency Plan Outline

Identifying LEP individuals who need language assistance

- Language identification flash cards are available for each driver and reception staff member so these cards can be used to help LEP consumers identify the language they speak. Cards are hanging from the receptionist's wall and are in glove boxes of vehicles. New cards are being purchased for the two vans.
- Each driver is trained in how to identify a LEP person and how to properly use the language identification flash cards.
- Each driver is trained in how to call a language assistance service. A sheet of paper with instructions on how to make a three-way call is kept in each bus.
- We survey drivers and other staff members with direct consumer contact on a yearly basis at the beginning of each fiscal year regarding their experiences with having any direct or indirect contact with LEP individuals. This will be done to help monitor need. This was done the week of March 15, 2017.
- We work with our local RideLink dispatch service to have them identify when we will be transporting an LEP individual, so appropriate interpretation services can be anticipated and provided as needed.

Language Assistance Measures

- Provide interpreter service telephone numbers, including three way telephone service, for drivers to use to call interpreters, if needed.
- Train drivers and reception staff to call for interpretation services when an LEP person who has difficulty communicating is identified.

Senior Neighbors Staff Training

- Senior Neighbor's staff members will be provided with the LEP plan and will be educated on procedures to follow. This information will also be part of the staff orientation process for new hires.
- Training topics will include:
 - Understanding the Title VI policy and LEP responsibilities.
 - Language assistance options available to staff members when working with LEP persons.
 - Use of Language Identification Flashcards.
 - Documentation of language assistance requests.
 - How to handle Title VI/LEP complaints.

Providing notice to LEP persons

- We currently have an active outreach program to refugee seniors in our community. One part time staff member is dedicated to this program. Regular transportation is provided to take Bosnian refugees grocery and necessity shopping at a local superstore. Times of these trips and sign-up procedures are posted in Bosnian in areas where these refugees frequent.
- Registration for the RideLink program, requests for rides, and ride manifests to our drivers are all provided through the local RAPID transit system. RAPID's LEP plan is used to help advertise and provide language services to seniors who contact them.
- Non-English outreach literature will be distributed through non-English publications, when needed.

Monitoring and updating the LEP plan

- Senior Neighbors will handle complaints through the use of our agency Grievance Procedure. An initial response to any complaint will be made by an administrative staff member within 48 business hours of the complaint. Documentation of the dispensation of the complaint will be maintained until the complaint is resolved. The agency leadership team will review all complaints and procedures reviewed and changed if necessary.

- Title VI Program update schedules will be followed and the LEP plan updated as needed. At minimum, updates will occur on a yearly basis by September 30 of each year. Each update should examine all plan components, including:
 - What is the current LEP population in our service area?
 - How many LEP persons were encountered?
 - Are their needs being met?
 - Have people moved in who use languages new to the area?
 - Are interpretation service lists up to date?
 - Has the agency's technology, staff or financial costs changed?
 - Has the agency fulfilled the goals and obligations of the plan?
 - Were complaints received and, if so, how were they resolved?
 - Have we genuinely attempted to comply with all Title VI rules?

Kent County has a growing population of Spanish speaking and other Indo-European speaking individuals, most of whom are served by organizations that serve persons of their specific ethnic background. Senior Neighbors has an LEP Plan developed using FTA's four factor analysis. Senior Neighbors continues to welcome anyone who has Limited English Proficiency and provides outreach to non-English speaking residents. For instance, we have an outreach program that specifically targets area refugees. These services primarily include case management and transportation. Other non-English speaking participants come from the county wide single access transportation system for seniors called Ridelink. Our transportation drivers and receptionists carry language identification flashcards and can use telephone interpretation services provided by the RAPID, our local transit service agency, when languages are identified. Transportation staff members have all become PASS certified. Part of this training includes sensitivity to people with disabilities and people of other languages and cultures. At the training, LEP procedures are explained. Our drivers will be surveyed annually to see how many LEP riders they have encountered, and trainings will be adjusted to meet the need. We are in the process of changing and updating all of our brochures and fliers. We intend to update our Spanish, Bosnian and Vietnamese brochures as part of this process. We have a nine question agency assessment tool that will help us analyze and update components of our plan.

VIII. Community Outreach

As an agency receiving federal financial assistance, we have made the following community outreach efforts:

Coordinated Public Transit-Human Services Transportation Plan (Coordinated Plan). Senior Neighbors, Inc participates in the Specialized Services Operating Assistance Committee and the Consumers Advisory Committee in developing and implementing a community transportation coordination plan.

Transit Improvement Plan (TIP). The TIP is a fiscally constrained three-year planning document that addresses transportation projects and programs including: federal, state and local highways, transit, ridesharing, bike paths and pedestrian facilities. If an item we wish to purchase is not in the TIP, it cannot be funded. The TIP process includes public hearings and public comment periods.

Board Meetings. The Board of Directors holds five meetings per year and the public is invited to attend.

Client Grievance Policy. Clients may register dissatisfaction with the administration of a program, or in the services provided by following the Senior Neighbors, Inc. Client Grievance Policy.

Client Satisfaction Surveys. We conduct client satisfaction surveys on 10 – 25% of persons who use our services. Information gathered from these surveys is used to determine whether any changes need to be made in the provision of our services.

Bilingual Outreach. Senior Neighbors, Inc. provides outreach specifically for area refugees, including the Bosnian, Sudanese, Somali, Bhutanese, Burmese, Syrians, Iraqi, Ethiopian, Afghanistanian and seniors from the Democratic Republic of Congo populations in Kent County.

We submit to the Michigan Department of Transportation annually an application for funding. The application requests funding for both capital and operating assistance. Part of the annual application is a public notice, which includes a 30-day public comment period.

IX. Membership of Non-Elected Committees and Councils

Senior Neighbors does not have Non-Elected Committees or Councils.
